

30 ACTIONS TO AVOID pests in the house

BLOCK ALL ACCESS POINTS

- Check the weatherstripping
- Caulk windows and frames
- Check and seal openings around wires and pipes
- Inspect foundation cracks
- Repair damaged screens
- Apply **CRAWL OUT™** around doors and windows

CONTROL HUMIDITY

- Maintain the humidity level in your house between 40-50%
- Check for leaks under the sink and appliances
- Repair damaged seals around the bathtub, shower and sinks
- Clean the bathroom fan
- Run the dehumidifier
- Check and clean ventilation ducts

PREVENT INTRUSIONS

- Remove leaves and debris near the foundation
- Trim all branches that overhang the house
- Inspect soffits and under balconies
- Clean outdoor garbage cans and bins
- Move firewood away from walls
- Apply **CRAWL OUT™** around the foundation, along walkways and around the patio

ELIMINATE ALL SOURCES OF FOOD

- Discard any suspicious packaging
- Store food in airtight containers
- Vacuum the pantry and shelves
- Clean under the refrigerator and stove
- Empty and clean recycling bins and garbage cans regularly
- Place **ANT OUT®** Ant Traps in the pantry and under the sink

TIDY UP AND DECLUTTER

- Declutter rooms and closets
- Vacuum mouldings and corners
- Clean under furniture and sofas
- Clean behind the washing machine and dryer
- Replace cardboard boxes with airtight containers
- Organize the garage and storage areas
